

INSTRUCTIONS FOR COMPLETING THE SUBLIMATION FORM

FILLING OUT THE FORM

Please Note: Fill out one Sublimation Form per garment.

WHEN WILL I USE THIS FORM?

This form will be used for any SBG, SBE, or SBW styles. This form is NOT to be used for Special Order catalog styles that end in an “S” (for example, 7600S, 7603S, 7629S).

FABRIC CHOICES:

• Holotek:

Holotek is an iridescent foil like fabric. It is most comparable to our hologram fabrics. Holotek can be chosen for SBG and SBE styles. Colors are mixed with the white background of the fabric, so colors will never be super dark.

• Subfuse:

Subfuse is a flat base fabric; no shine, very soft, and holds colors very well. This is comparable to our nylon/spandex fabrics. Subfuse can be chosen for SBG and SBE styles.

• Polytek:

Polytek is mostly used for men’s singlets. It is comparable to our nylon fabrics, but is much thinner. Polytek holds color well.

• Optic White:

Optic white is used for only warm-up styles. It is comparable to our drytech material. Optic white is a flat base fabric; no shine, very soft, and holds colors very well.
