

Dear Valued Customer,

Mesh is a fashion fabric that we have used in our performance apparel for many years. Our customers need to know that the “wear and tear” of routines could potentially damage this fragile fabric. Please be advised that abrasion and stress on the fabric from routines and activities could cause quality issues with this fabric. It is difficult for us to guarantee the life of this fabric due to the uniqueness of each athlete’s routine and the placement chosen for this fabric. We have been a leader in performance apparel for 35 years and outfit Olympians around the world. It is important for us to continue our reputation for the best quality in the world and alert you to our concern. Please use your own discretion when ordering this fabric. We will not guarantee the life span of this fabric due to “wear and tear” on your performance apparel. You are free to order this fabric. If you choose to do so, we ask that you sign below indicating that GK Elite Sportswear will not be responsible for replacing or repairing uniforms.

Thank you for your business!

Sincerely,

Quality Control Department
